

We've got it all!

FUJIFILM large format inkjet media is a range of 25 wide format inkjet photo papers, canvas and film, suitable for use with the latest large format inkjet printers from EPSON, HP and Canon.

Our **ESP** (EASYSTUDIOPRINT) and the **ImageHunter** software, with its lay-out interface, turn large format printing into child's play. They guarantee you get the right size with the right colours first time, every time. It also saves time, paper and ink to help you minimise your costs.

To experience the difference, **contact us now** for a media swatch book and an ESP or ImageHunter demo disc.

Large format printing has never been easier!
